

## Press Release

### **Advanced Circuits, a brain-boggling track building puzzles!**

After the success of Viking Invasion on Nintendo DSiWare™, BiP media is proud to announce the release of its second game, Advanced Circuits, exclusively available to download from the Nintendo DSi Shop.

With a train, a car or a tank – are you ready for a new challenge? This brain-boggling puzzle game will put your powers of deduction to the test.

Complete the circuits by connecting squares on the game board with pieces of track. Some pieces of track are already shown on the board at the beginning of the game to give you a head start. There is only one solution to each puzzle. The rules are simple but the challenges are tough!

- Challenge mode features 60 predefined game boards, of increasing difficulty.
- Free Play mode lets you select the game board size and practice on any number of randomly-generated puzzles.
- 72 awards to be won.
- Also features a tutorial, hints and tips and even the solution if you feel like giving up!

A trailer and a demo version are already available on [www.bip-media.com/advanced-circuits](http://www.bip-media.com/advanced-circuits).

#### **About BiP media:**

BiP media ([www.bip-media.com](http://www.bip-media.com)) is an independent French studio focusing on the development of innovative, high-quality casual games. Since its establishment in 2004 by two seasoned industry insiders, BiP has successfully developed many original PC and console titles across a range of genres.

**About Nintendo DSiWare (Nintendo DSi Shop)**

*Nintendo DSiWare offers an ever-expanding collection of games and applications exclusive to Nintendo DSi. From useful applications like the Nintendo DSi Browser to bite-sized versions of your favorite games, there's always something new in store!*

**About Nintendo Points**

*With your Nintendo DSi™ or Wii™ wirelessly connected to the Internet you can access the Nintendo DSi Shop or Wii Shop Channel and start browsing. In the Nintendo DSi Shop, you can turn Nintendo Points into Nintendo DSi Points™ and redeem them for Nintendo DSiWare™ games and applications. In the Wii Shop Channel, you can turn Nintendo Points into Wii Points™ and redeem them for Virtual Console games, Wii Channels or WiiWare™ games. Nintendo Points can be purchased at retail outlets. They can also be bought directly as Nintendo DSi Points™ in the Nintendo DSi Shop, or as Wii Points™ in the Wii Shop Channel.*

*Nintendo trademarks used under license. WiiWare is only available through the Wii console.*

*Nintendo DSiWare is only available through the Nintendo DSi system.*
